Setting up EyeTV Netstream 4C

1. Select a suitable location for your EyeTV Netstream 4C where there is access to your digital cable socket and your local network.

2. Connect the digital cable output into the Cable In input (1).

3. Plug the supplied Ethernet cable (8) into the network socket (4) and connect the EyeTV Netstream 4C to your router or switch.

4. Connect the supplied power supply (9) to the EyeTV Netstream 4C power supply socket (7) and plug it into a mains socket.

5. Switch on your EyeTV Netstream 4C by pressing the power button (6).

On your mobile device:

6. Download the free EyeTV Netstream app by Elgato Systems from the App Store for iOS, or Google Play or the Amazon Appstore for Android.

7. Start the EyeTV Netstream app and follow the on-screen instructions.

Install Mac & PC software

To also enjoy live TV on a Mac or PC using your EyeTV Netstream 4C, please download EyeTV or TerraTec Home Cinema: www.elgato.com/gettvsoftware. Keep this card in a safe place. The activation code is required each time you install the TV software.
